

# Managed Security Operations Centre (SOC) as-a-Service

## Solution Overview

Enhance your organisation's security with AUCyber's advanced Security Operations Centre (SOC). Our cyber security experts provide 24x7 monitoring and reporting, seamlessly integrating with your existing tech stack – no provider changes needed.

AUCyber's Managed SOC offers peace of mind and unmatched security performance for businesses of all sizes across Australia. We combine cutting-edge technology with highly skilled, security-cleared Australian analysts for cost-effective, continuous monitoring to prevent, detect, respond, and recover swiftly.

Experience comprehensive protection tailored to your organisation's needs.

### **24x7 Security Monitoring**

Real-time detection and continuous monitoring of your organisation's IT environment, ensuring comprehensive security at all times.

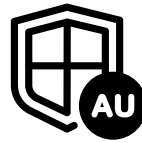

### **Detection & Actionable Advice**

Our expert analysts identify threats, prioritise responses, and provide tailored advice to effectively resolve issues.

### **Threat Intelligence & Reporting**

Real-time threat intelligence with comprehensive reporting, empowers you to make informed decisions and proactively protect your organisation.

### **100% Australian SOC**

Security monitoring from a dedicated Australian SOC, by security-cleared personnel with robust accreditations, including ISO27001 and IRAP.

## **Managed SOC Benefits**

### **Reduce Risk**

Minimise exposure to cyber security threats through 24x7 monitoring and expert incident response, ensuring compliance with high security standards.

### **Reduce Cost**

Lower operational expenses by outsourcing while eliminating the costs associated with in-house training, licencing and staff.

### **Increase Security**

Strengthen your overall security posture with 24x7 surveillance and real-time threat detection, enabling swift action against potential breaches.

### **Increase Operational Efficiency**

Streamline your security processes and enhance productivity by leveraging specialised expertise, allowing your team to focus on core business activities.
